General Information:

The Aquatic Center Utility Repairs Project was initiated due to a broken water service pipe at the Aquatic Center. The water service pipe broke in August near the end of the season. A temporary pipe was used so operations could continue to the end of the season. This project will install a new water service pipe to the Aquatic Center to allow operations to begin in the spring.

Staff recommends awarding the bid to Red Pederson Utilities, Inc. If approved by Council, the project must be completed by November 21, 2012.
